Pervasive Price List Notes

*****IMPORTANT Please Read - The following Notes apply to Products listed in this Price List.*****

Pervasive PSQL Server

1. 32-bit Windows Server includes 32-bit Client, 64-bit Windows Server includes 32- and 64-bit clients.
2. Microsoft licensing for Windows Vista limits the acceptable user count for PSQL to 6 and 10 users, and Windows 7 licensing limits the acceptable user counts to 6, 10, and 20 users.
3. For user counts greater than 500, purchase the Intranet/Unlimited or Internet/Unlimited User Licence.
4. Call for pricing of Pervasive PSQL hardcopy documentation.

Pervasive PSQL Server User Count Increases (UCI's)

1. UCI's are not eligible for upgrade.
2. UCI's can only be added to an existing Pervasive PSQL Server installation.
3. PSQL UCI's must match the version of the existing Pervasive PSQL Server installation.
4. Operating System (including bit architecture) of UCI must match the PSQL Server Engine where the UCI will be added.
5. No media is included.

Pervasive PSQL Server Engine Switch from 32- to 64-bit

1. Proof of purchase for PSQL Server Engine of same user count is required for bit switch.
2. Bit switches are applicable across OS platforms (from Windows to Linux or Linux to Windows).
3. Bit switches are for the nearest user count that is not a downgrade.
4. No media is included.

Pervasive PSQL Server Upgrades from Previous Versions

1. Proof of purchase of installed version of PSQL (the version being upgraded) is required.
2. Upgrades must be of the same user count or one level higher than the installed base server license. Reducing user count during an upgrade is not allowed.
3. UCI's are not eligible for upgrade.
4. It is permissible, based on user count, to upgrade to the next level user count. Validation is required to upgrade to the next level.
5. Upgrades are applicable across OS platforms (from Windows to Linux or Linux to Windows).

Pervasive PSQL Intranet/Unlimited Internet/Unlimited User Licensing

1. Licensing is per physical server with no CPU restrictions.
2. The PSQL Intranet/Unlimited License must be purchased if the number of concurrent database users can not be determined and the software is limited to the support of internal business operations.
3. The PSQL Internet/Unlimited license must be purchased if the software is used for any type of commercial hosting for a 3rd party, including SaaS (Software as a Service), ASP (Application Service Provider, time sharing, or service bureau operations. The PSQL Internet/Unlimited license includes an unlimited concurrent user count.
4. To upgrade from PSQL Intranet/Unlimited to PSQL Internet, contact Pervasive.

Pervasive PSQL Workgroup and User Count Increases

1. Workgroup licenses are per machine where data is accessed by the Workgroup engine. For example, a 5-user Workgroup license will allow 5 concurrent users to access one PSQL Workgroup acting as a database server on one machine.
2. Enabling additional machines in a network to act as database servers requires the purchase of additional Workgroup licenses
3. Increasing the number of concurrent users allowed requires the purchase of Workgroup User Count Increases (UCI's). Maximum allowable user count for Workgroup is 5.
4. Workgroup 10 Pack (10 1-user Workgroup licenses) are for EMEAA customers only.

Pervasive PSQL Workgroup Deployment Licenses

1. Deployment Licenses (25, 100, 1000, Unlimited Count) are available directly from Pervasive or through authorized distributors in EMEAA.
2. Workgroup Deployment Licenses may be used to deploy multiple User Counts of 1, 3 and 5, and User Count Increases of 1 and 2.
3. Workgroup Deployment Packs used to create Workgroup licenses must be added to the Workgroup Deployment Portal at <http://deploy.pervasive.com>.
4. Internet access and registration may be required for product activation or license distribution.

Pervasive AuditMaster

1. AuditMaster v6.x runs on Pervasive PSQL v10.x.
2. AuditMaster v7.x runs on Pervasive PSQL v11.x.
3. AuditMaster user counts must match or exceed the PSQL Server user count. More than 50 concurrent users requires the purchase of an AuditMaster Unlimited Server license.

Pervasive Backup Agent

1. Backup Agent v2.x requires Pervasive PSQL v10.10 or higher.
2. Backup Agent v3.x requires Pervasive PSQL v11.x or higher.
3. Backup Agent is licensed on a per server basis regardless of user count.

Pervasive DataExchange Real-Time Backup Edition

1. DataExchange v3.x requires Pervasive PSQL v10.10 or higher.
2. DataExchange v4.x requires Pervasive PSQL v11.x or higher.
3. DataExchange Real-Time Backup Edition includes one (1) DataExchange license for use with two (2) Pervasive database engines (primary and backup) and one (1) single-user Pervasive PSQL Workgroup for use as the backup Pervasive PSQL database.
4. DataExchange Real-Time Backup Edition engines are restricted to 1-way replication in a network of two (2) database engines only.
5. DataExchange Real-Time Backup Engine user counts must match or exceed the primary database PSQL Server user count. More than 50 concurrent users requires the purchase of a DataExchange Unlimited Server license.

Pervasive DataExchange Data Synchronization Edition

1. DataExchange Data Synchronization Edition licenses are required for each PSQL database engine participating in a replication network. For example, if you have three PSQL database engines in your replication network, you need three copies of DataExchange Data Synchronization - one for each PSQL database engine.
2. DataExchange Synchronization Edition supports only Btrieve level replication.
3. DataExchange 3.x requires Pervasive PSQL v10.10 or higher.
4. DataExchange 4.x requires Pervasive PSQL v11.x or higher.
5. DataExchange Data Synchronization Edition user counts must match or exceed the PSQL Server user count. More than 50 concurrent users requires the purchase of a DataExchange Unlimited Server license.
6. The DataExchange Data Synchronization Edition for Workgroup Engine is restricted to replicating with PSQL Server databases. It will not replicate with other Workgroup engines.

Pervasive PSQL Insurance

1. Pervasive PSQL Insurance may be used up to three times with a maximum term of seven days each time.
2. Pervasive PSQL Insurance may be used on three different machines at the same time, on one machine three times, or a combination of one and two machines so long as the number of uses does not exceed three.
3. Pervasive PSQL Insurance license must match the Operating System of the Pervasive PSQL Server installation where the PSQL Insurance will be used.
4. To increase the number of users covered with Pervasive PSQL Insurance, purchase Pervasive PSQL Insurance User Count Increases.

Pervasive Database Support Offerings

1. Only products in this Price List are eligible for support.
2. Call for Per Incident Support pricing for other Pervasive PSQL versions.
3. For other than Per Incident support, contract terms for database support are for 12 months or until the resolution of the allocated service tickets, whichever comes first.
4. Per Incident, Bronze, and Silver support offerings are not eligible for discount.
5. Pervasive provides support for PSQL v11 and PSQL v10 on Windows 7, Windows Server 2008, Windows Server 2003, Windows Vista, Red Hat Linux and SUSE Linux.
6. For more information on Support Offerings and operating systems supported for Pervasive PSQL, please visit <http://www.pervasivedb.com>

Important Tips for Product Activation

1. Beginning with Pervasive PSQL v10.13 (e-commerce and trials) and Pervasive PSQL v10.3 (shrink wrap), Server and Workgroup products use Product Activation to validate licenses. Beginning with Pervasive PSQL v11, all Server and Workgroup products use Product Activation.
2. Always use one product key per installation.
3. Always deactivate keys before uninstalling Pervasive PSQL.
4. Always deactivate keys before making any changes to the hardware. Versions of Pervasive PSQL that use Product Activation check hardware configurations during engine startup. If the hardware configuration has been changed, PSQL may disable the product key and it will be impossible to activate the database.
5. A product key can be activated up to 5 times and deactivated up to 5 times.
